

## **JOB DESCRIPTION /** **FABRICATOR-WELDER**

**LOCATION /** Factory Based

**WORKING HOURS /**

Monday – Friday 40 hours. Varying shifts available (standard day shift 8am-4.30pm or shifts 6am-2pm or 2pm-10pm)

**OVERTIME RATE /** Time and a half

**THE ROLE /**

The day-to-day responsibilities of successful candidates will be working on the fabrication and welding of medium to heavy duty steel products. Ensuring all work is carried out in accordance with the company's quality and H&S procedures with the ability to work as part of a team, working to tight deadlines with minimum supervision.

A structural steel background is essential, and any candidates must have the ability to MIG weld single and multi-run fillet and butt welds.

Candidates must be experienced in the use of plasma/oxy cutting equipment and have experience of operating overhead cranes.

*Ideally candidates would be time served apprentices holding a NVQ or equivalent.*
